

# Label Review Program

Food Beverage Canada (FBC) and the Canadian Food Exporters Association (CFEA) are pleased to announce our partnership in a new & exciting service for you the exporter.

Creating a label for the export market can be a challenge, especially ensuring that you have met all of the regulatory requirements including itemizing your ingredients properly, creating your Nutrition Facts panel, ensuring the font size and placement of information is correct, adequately stating your net weight, ensuring you made the right claims to name just a few.

Why worry that your label is correct! FBC and CFEA are there to assist you with your label by reviewing it for accuracy.

..and if you need a Nutrition Fact panel, we can create one for you either by theory with a database recognized by both FDA & USDA or through analysis with our network of labs.

### Our Services:

- **Label Consultation** includes discussing and answering concerns or questions you may have about your label.
- **Label Review** includes reviewing font size, placement of information, net weight declaration, ingredient list, claims, etc.
- **Nutrition Fact Panel** creation either by theory using a database or analysis by laboratory.
- **Registration** of your products with USDA or FDA and / or State authorities.
